SUMMARY

VLSI (Very Large Scale Integration): Knowledge of digital electronics. CMOS technology. logic design. semiconductor fabrication. ASIC/FPGA design flow. Verilog HDL, and electronic design automation (EDA) tools. Familiar with RTL design. simulation. synthesis. timing analysis, and verification. Passionate about designing efficient. high-performance. and low-power integrated circuits,

WORK EXPERIENCE

Designation

Mar 2026 - Jun 2026

– VLSI Design Intern

Learned the VLSI design flow from RTL design to physical design.

Designed and simulated digital logic circuits using Verilog HDL.

Performed RTL simulation and basic verification.

Gained hands-on experience with CMOS technology and EDA tools.

Collaborated with mentors to complete mini VLSI design projects.

PROJECTS

Some Project

- IoT-Based Home Automation using ESP32
- Smart Irrigation System
- Face Recognition Attendance System
- Design and Verification of 8-bit ALU using Verilog

EDUCATION

2024 - present	Bachelor's Degree at SVR Engineering College	(GPA: 7.3/10.0)
2024	diploma at SVREC	(75)
2021	Class 10th	(78)

SKILLS

TECHNICAL SKILLS: • Verilog HDL • RTL Design • Digital Electronics • Embedded Systems • C • C++ • Python (Basic) • MATLAB • FPGA Basics

Tools: • Xilinx Vivado • ModelSim • Arduino IDE • Proteus • GitHub

SOFT SKILLS: • Problem Solving • Teamwork • Communication • Time Management • Leadership • Adaptability
